RHEUMATISM PAIN

The exact cause of rheumatism is unknown, though it is generally believed to be due to an excess of uric acid in the blood. It may be also said with equal truth that it is a disease of the blood. In fact the literature of rheumatism shows that there are but few drugs which have not been found to have the same remedy to be a great disappointment. All physicians however agree that every method of treatment is aided by the administration of some remedy to relieve the pain and quiet the nervous system and Dr. W. D. Schmitt's tablets should be given preference over all other remedies for the relief of the pain in all forms of rheumatism. These tablets can be purchased in any quantity. They are also unsurpassed for headaches, neuralgias and all pains. Ask for A-K Tablets.

Lemons Whiten and Beautify the Skin! Make Cheap Lotion

The juice of two fresh lemons strained into a bottle containing three ounces of orchard white makes a whole quart of the most remarkable lemon skin beautifier at about the cost one must pay for a small jar of the ordinary cold creams. Care should be taken to strain the lemon juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan, and is the ideal skin softener, smoothen and beautifier.

Just try it! Make up a quart of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands. It should naturally help to whiten, soften, freshen, and bring out the hidden roses and beauty of any skin. It is wonderful for rough, red hands.

Your druggist will sell three ounces of orchard white at little cost, and any grocer will supply the lemons.—Adv.

CHELSEA

The recent historical pageant given by the Chelsea high school may be repeated commencement week, so great has been the call for it. Over 60 high school pupils took part in the recent presentation, which consisted of seven scenes.

The entertainment opened with "Bold Robin Hood" and his band of merry men, an overture containing 26 characters. The part of Robin Hood was especially well rendered, including the solos.

Indian scene was very pretty, both the men and women being well costumed for their parts. Most of Hiawatha's costume had been worn by a Sioux chief from whom it was purchased.

The Pilgrim scene looked like the pictures of those days and consisted of an old-time song being first "lined out" by the elder, who kept the time for the choir.

The next scene was entirely different, illustrating the days of '61 to '65, and opened with a campfire scene, with officers, guards and regular camp make-up. A group of "niggers" came to the camp seeking a pass through the lines and in appreciation of its being granted sang "Dixie" for the soldiers. There was a night attack on the camp, a call to arms and many interesting features of those days.

The last scene was a grand climax which included 57 characters, each carrying a flag, arranged around "Miss Columbia," who sang "The Star Spangled Banner," and for the finale the whole chorus sang "America."

Miss Gertrude Metcalf as mistress of the pageant introduced each scene.

The entertainment was given under the management of Mrs. Eunice Lewis, teacher of music in the high school who presided at the piano and to whom much credit is due for its success.

Those who did not attend certainly missed a splendid entertainment which showed what our boys and girls can do.

DON'T HURT A BIT!

Lift your old, torturous corns and calluses right off with the fingers.

This tiny bottle holds the wonder of wonders. It contains an almost magical drug discovered by a Cincinnati man. It is called Freezone. It is a compound made from ether.

Apply a few drops of this Freezone upon a tender, aching corn or a hardened callous. Instantly the soreness disappears and shortly you will find the corn or callous so shriveled and loose that you just lift it off with the fingers.

You feel no pain or soreness when applying Freezone or afterwards. It doesn't even irritate the skin.

Just ask in any drug store for a small bottle of Freezone. This will cost but a few cents, but will positively rid your poor, suffering feet of every hard corn, soft corn, or corn between the toes, or the tough callouses on bottom of feet. Genuine Freezone has a yellow label. Look for yellow label.—Adv.
